

PRESS RELEASE**24.06.2024**

This year's forthcoming second international gathering of the global jewelry industry is scheduled to take place in Istanbul in October!

The IJS Istanbul Jewelry Show 2024 is scheduled to take place from October 02 to 05

In Istanbul, not only the continents merge, but also the ancient cultures of thousands of years. Positioned as one of the most significant business hubs in the global supply chain, the city now hosts the international jewelry industry bi-annually within the framework of the IJS. The upcoming IJS Istanbul Jewelry Show, organized by Informa Markets, will mark its second edition for the year and the 56th overall event at the Istanbul Expo Center from October 02 to 05. In April, the IJS saw participation from over 30,000 business professionals from 139 countries. The upcoming trade show scheduled for October is expected to host more than 1,000 brands. The exhibition will present the latest products, designs, and collections in gold jewelry, jewelry designs, jewelry mountings, diamonds, gemstones, and silver.

The 56th edition of IJS Istanbul Jewelry Show, a unifying platform for prominent brands, and international jewelry sector buyers since 1986, continues to make significant progress without any signs of slowing down. **Şermin Cengiz, the Co-Founder of IJS**, expressed their satisfaction with the outcome of the trade show held in April. The event, rescheduled to new dates, garnered positive feedback from exhibitors and visitors. Cengiz highlighted the success of the IJS Istanbul Jewelry Show, which saw participation from over 1,500 brands representing 16 countries, including Türkiye, and attracted over 30,000 visitors from 139 countries. Moreover, there was an 8% increase in the number of international professional visitors engaged in the jewelry business. Looking ahead, Cengiz announced plans to organize the second IJS gathering of the year in October with the aim of replicating this success.

The IJS 2024 will showcase events that add a unique dimension to the glamorous realm of jewelry

The IJS Istanbul Jewelry Show will also feature events and presentations aimed at shaping the future of the international jewelry sector. The trend report, exclusively prepared for IJS 2024 by WGSN, the world's leading trend-forecasting company, is slated for presentation during the upcoming show. Anticipated to ignite creative direction, the report is poised to influence the 2025 collections of jewelry manufacturers. The October Gathering of the IJS Istanbul Jewelry Show 2024 is set to feature the private section of the **Designer Club**, showcasing the latest collections from renowned jewelry masters during the "**Art for Jewellery: Inspiration Hub**" event dedicated to honoring arts and artists in the jewelry industry and is held in collaboration with the Jewellery Exporters' Association.
