Şermin Cengiz, Founding Partner of UBM Rotaforde: "Fairs play a key role in economic recovery"

Emphasizing that fairs are the key address to fast recovery of global economy, Cengiz said: "Fairs make great contribution not only to their respective industries but also to secondary industries before and during fair, while producing source of income to more than 100 subsectors from transportation to accommodation, from food & beverage industry to booth producers.

Istanbul Jewelry Shows in March and October 2019 generated an income of TL 164,2 million for secondary industries according to UFI calculation method, excluding orders and booth rentals during the fair.

During 2019 in Turkey, 25.828.251 visitors were hosted at 482 exhibitions. Despite the decline of such figures in fairs postponed/cancelled in 2020, Turkey will keep growing in fair organizations for future years".

Cengiz also added: "This year, there is an important milestone for Istanbul Jewelry Show which has been organized for 36 years. This fair will be our 50th fair. Improving in parallel with the growth of jewelry industry since 1986, our fair will rapidly adapt to the new normal and keep being a competent address for worldwide jewelry industry, mainly including Turkish jewelry industry.
